

Chateau de la Font du Loup

France

Châteauneuf du Pape province

In the south of the Rhone Valley, in the heart of the Châteauneuf-du-Pape appellation, an exceptional terroir and a northern exposure yields wines of great finesse.

Biodiversity is preserved with the help of beehives that produce an exceptional honey and the fertility of the soil is maintained thanks to the sheep that colonize our vines for several months. We are committed to organic farming since early-2021 and achieved HVE 3.

The Château de la Font du Loup benefits from natural irrigation thanks to the famous spring that brought the wolves down from Mont Ventoux and from an important water table nearby.

Production	30,000 bottles
UPC Bar Code	3760209920369

Tasting Notes

The Château de la Font du Loup is an emblematic vintage of delicately combined black fruit, spices and a refined floral side. In the mouth, the silky notes of cherries in brandy, licorice and black pepper licorice and black pepper make this a wine of rare elegance. It can be drunk young for the impatient yet expresses its freshness for many years. This wine is the very expression of the Crau. The grapes are from our Grenache, Mourvedre, Syrah and Cinsault vines picked and sorted grain by grain by hand, then vinified in temperature-controlled concrete vats.
