

VICENTIN
— FAMILY WINES —

Vicentín Winery was founded in 2009 when the Vicentin family decided to enter the wine industry with the aim of creating and offering the world its personal version of the great Argentine wine, Malbec.

The first step was the selection of the vineyards in the wild desert of the Andes; the land with the best soil, the best raw material, the best tannins and the most optimal fruit quality. They employed families, who for several generations had nurtured the vineyards with their love, secrets and particular grapes. In this way, uniqueness was achieved and are able to produce a variety of wines across various vineyards.

Density	9,000 kg/ha
Alc. Vol.	13.9%
Production	n/a
UPC Bar Code	7798153600194

Tasting Notes

This wine is a ruby red color with purple hues. It has notes of red fruit, such as blackberry and black cherry as well contributions of oak, cigars, vanilla and spice that blend in perfect harmony. It is round, balanced and fresh wine that highlight the fruit and enhances the elegant enveloping tannins.
